

Gas Pricing Plans: Deemed, Transition and Payment Default Price Plans

Deemed Price Plan

Our default rate applies if you move into new premises.

The Deemed Price Plan will apply if we supply a site with gas without a contract having been agreed. For example, if your business moves into premises we already supply, deemed prices will be charged. These prices will continue to apply until a contract is agreed or we stop supplying the site.

The prices outlined below apply from **6th March 2018**.

Consumption kWh	Fixed Daily Charge Price (pence/day)	Unit Price pence/kWh
<73,000 kWh	76.34	6.96
>73,000 kWh	348.00	6.96

Transition Price Plan

If you choose not to renew and terminate your contract with us **but another supplier does not register your meter point**, our Transition Price Plan will apply.

Should you wish to change supplier, ensure your account balance is cleared.

The Transition Price Plan outlined below is correct as of **6th March 2018**.

Consumption kWh	Fixed Daily Charge Price (pence/day)	Unit Price pence/kWh
<73,000 kWh	76.34	6.96

>73,000 kWh	348.00	6.96
-------------	--------	------

Payment Default Price Plan

If you default on the agreed payment terms in your contract and we are unable to collect your payment, we will transfer you to our Payment Default Price Plan. We will provide details of your Payment Default Price Plan to you by email, letter or phone call. It will remain in place until your payments are brought up to date.
